Will uranium extraction contaminate water in Hot Springs and the Cheyenne River.

This is not possible. The contaminated aquifer containing the uranium (and vanadium in this case) is situated in a geological structure that is contained in a unique, isolated location that allows for in-situ recovery extraction of uranium.

Thanks for saying you saw it in the Western Trader! Thanks to all our advertisers this week! You are greatly appreciated!

Pet of the Week

Say hello to Chica! She is a high energy Labradoodle that is 4 years old and spayed. She is a sweet, loving girl and she loves playing ball. She is very social, likes other dogs and would make a great family pet!

All 'Pet of the Week' listings are available for adoption at the Battle Mountain Humane Society.
