Will the uranium produced at Dewey Burdock be sold to Russia and China?

The United States is the largest consumer of nuclear energy in the world and at present 60% of this uranium comes through Russia. Uranium produced at Dewey Burdock would only be sold to US utilities and will replace foreign sources of energy and foreign control of our energy use.

PRINT IS NOT DEAD.

Our brains remember print. Why? Because print *commands* our attention in a way that digital ads do not.

They are also more credible with a large number of people (71 percent) trusting print ads over television or online ads.

Newspapers are also far from dead with nearly 70 percent of Americans still reading them — 50 percent of those readers consume them in **print only**. You gotta be in the paper!
